

JIWEP EAST AFRICA

COMPANY LIMITED

P O R T O F O L I O

ABOUT OUR COMPANY

Jiwep East Africa Company Limited is a forward-focused building and construction firm delivering durable, safe, and high-standard infrastructure across the region. We specialize in residential, commercial, and industrial developments, combining skilled professionals, modern technology, and strict quality control to ensure every project is executed with precision.

In addition to our construction expertise, we provide professional consultancy services in environmental management, Environmental Impact Assessment (EIA), Change of User applications, regulatory compliance, and capacity-building training. We support developers, businesses, institutions, government agencies, and private clients by offering practical, sustainable, and legally compliant solutions that facilitate successful project implementation while meeting environmental and planning requirements.

Guided by integrity, transparency, and a results-driven culture, we approach every assignment with a commitment to efficiency, safety, sustainability, and long-term value. Through strong partnerships, technical excellence, and a growing footprint across the region, Jiwep East Africa Company Limited continues to position itself as a reliable force in both construction and environmental consultancy—building today, securing tomorrow.

Environmental management, EIA and Change of user

is a professional consultancy firm specializing in environmental management, Environmental Impact Assessment (EIA), Change of User consultancy, regulatory compliance, and capacity-building training services. We provide practical, sustainable, and legally compliant solutions to individuals, businesses, institutions, developers, and government agencies seeking to undertake projects while meeting environmental and planning requirements.

Construction firm

is a leading consultancy firm offering professional services in construction project management, architectural design coordination, engineering consultancy, quantity surveying, building approvals, regulatory compliance, and technical training. We are committed to delivering innovative, sustainable, and quality-driven solutions that support successful project execution from concept to completion while ensuring compliance with industry regulations and best practices.

WHY CHOOSE US ?

We deliver projects with precision, transparency, and zero shortcuts, ensuring your investment stands strong for years. Our team blends expert craftsmanship with modern construction tech to guarantee consistent, high-quality results.

- ✓ **Reliable, on-time project delivery**
- ✓ **Strict quality and safety standards**
- ✓ **Transparent pricing and communication**

VISION AND MISSION

Jiwep East Africa Company Limited is built on a foundation of integrity, precision, and a commitment to excellence in every project we undertake. As we continue to expand our footprint in the region's construction space, our focus remains on delivering sustainable, high-quality infrastructure that meets the evolving needs of our clients and communities.

Vision

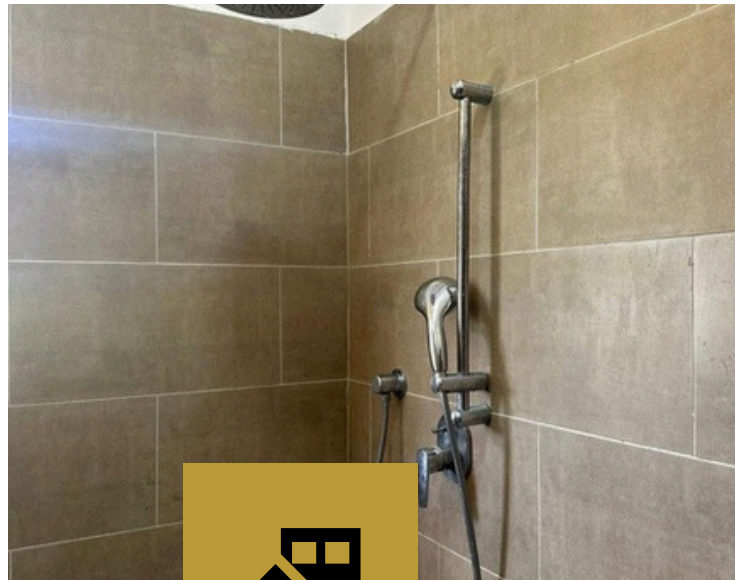

To build a sustainable future through excellence in construction, environmental management, and innovative infrastructure solutions.

Mission

To provide reliable, cost-effective, and environmentally responsible construction and consultancy solutions that meet client needs while promoting safety, quality, sustainability, and continuous improvement.
